

CABRINI SUPER SCIENCE SATURDAYS

ANATOMY ACADEMY

October 10

Discover all there is to learn about bones! Ever wonder what makes them hard? Watch a video, learn a song, and draw or assemble a skeleton!

GREEN CHRISTMAS

November 14

Learn the three R's of Environmental Science (reduce, reuse, recycle) by creating holiday decorations from used greeting cards, aluminum cans, plastic bottles and paper towel tubes.

SCIENTIFIC CHRISTMAS

December 12

Discover the science that is used inside Santa's workshop in a video on the "science of toys." Then make scientific toys of your own including "goop" and ultra violet radiation test bracelets.

SCIENCE "CELL-A-BRATION"

January 23

Study of cells -- Learn parts of the cell and types of cells through diagrams, songs, models and creation of cell soap models. Then discover how the lungs work to get the oxygen that cells need to survive.

CSI CABRINI

February 6

Participate in crime-solving activities such as fingerprinting, blood typing, and DNA extraction.

SOLID SCIENCE

March 6

Learn the science of solids, liquids and gases using materials and models. Create crystals and mirrors as well as work with polymers.

NEW ORLEANS, LA
CABRINI
HIGH SCHOOL
